

## Installation on RPi4 (thx Jörg!)

### Command Line Instructions

1. Open the Terminal program
2. Create a directory for SailingPD and navigate to it:

^^^

```
$ mkdir /home/pi/.SPD
```

```
$ cd /home/pi/.SPD
```

^^^

3. [download](<https://www.capolavoro.nl/download>) the aarch version of SailingPD

4. Extract the file

^^^

```
$ tar -xzf sailingpd-v4.1.4-linux-aarch64.tar.gz
```

^^^

- 5 .Navigate to the extracted directory

^^^

```
$ cd /home/pi/.SPD/sailingpd-v4.1.4-linux-aarch64
```

^^^

6. Run SailingPD by entering:

^^^

```
$ ./sailingPD &
```

^^^

#### Start from the Menu

Installation of SailingPD as outlined above does not create a Menu Item. This can be done now by doing the following:

1. Create and move a symlink from the SailingPD executable to **\*\*usr/bin\*\***

^^^

```
sudo ln -s /home/pi/.SPD/sailingpd-v4.1.4-linux-aarch64/sailingPD  
/usr/bin
```

^^^
